E1 & E2 Controls

Right Side

Left Side

Paddle (1): Seat Height Adjustment

To raise the seat height: Stand up (or raise your body; so there's no pressure on the seat), lift the paddle to raise the seat height.

To lower the seat height: Sit in the chair and lift the paddle to lower the seat height.

E1 & E2 Controls

Right Side

Left Side

Knob (2): Tension Control

To tighten the tension: when seated, turn the knob counterclockwise.

To loosen the tension: when seated, turn the knob clockwise.

Right Side

Left Side

Back Rest (3): Back Height Adjustment

To raise the back height: place your hands on the bottom of the back rest and gently push upward.

To lower the back height: Gently push the back rest upward until it reaches its max. The back rest will then fall to the lowest height level.

Note:

Back height adjustment not available on Modela 2, Bolero, HB, Fino or Camber chairs.

Paddle (4): Synchronized Seat and Back Tilt Adjustment

To adjust : Lift the paddle to unlock (the paddle stays up while it's in unlocked position), lean back to adjust the seat and back posture. Push the paddle to lock in position. It can be locked in 5 positions.

It has the safety feature when you lift the paddle to unlock, the back won't release right away, preventing it from hitting your back. In order to change the locking position you must lean on the back, to give some pressure, to disengage the lock.

E1-SS3 & E2-SS3 Controls Only
